

An ALGECO SCOTSMAN Company

Power Safe Lockers

Remove the risk of clutter, dangerous and unsightly chargers, trip hazards or even a fire. The power safe locker has been designed to provide a safe and secure environment for charging power tool batteries and mobile phones. Placed in a convenient position the power safe locker is available for all to use.

THE SAFE AND ECONOMICAL SOLUTION FOR CHARGING YOUR POWER TOOLS

- ◆ Secure charging
- ◆ Coin return locking
- ◆ 2-gang RCD protected 13 Amp outlets
- ◆ Vented lockers
- ◆ Individual identification numbers
- ◆ 12 secure charging lockers
- ◆ Hasp lock—padlock and 2 keys
- ◆ RCD protected unit
- ◆ Lead with 230v 13 Amp plug
- ◆ Cable exit point
- ◆ User instructions
- ◆ Fault finding guide

Additional Options:

- ◆ Locker lighting for improved visibility in dark areas
- ◆ 13 Amp fly lead—allows the Power Safe to be used from a standard 13 Amp supply
- ◆ Key barrel removal and replacement kit
