

## Integrated Management System Policy Statement

---

Elliott is committed to ensuring the highest standards of customer support and efficient operation throughout the group whilst recognising and responding to the needs of other stakeholders. Effective management systems and standards are recognised as key to achieving this objective.

Due to our rapid growth, success in entering new market sectors and in order to reflect different customer requirements Elliott is now conducting a major revision of the established Integrated Management System. The revised systems reflect the new business structure and incorporate our move towards lean manufacturing methodologies.

Elliott is committed to embedding not only the principles of lean manufacturing, but also the requirements of the ISO 14001, ISO 9001 and OHSAS 18001 standards into the revised systems. We are committed to ensuring each division has a management system based upon these recognised standards. Where commercially required a phased program to achieve separate accreditation for each operating division is underway. Two divisions have achieved or are undergoing assessment for individual accreditation to the ISO 9001 and 14001 standards and one division has achieved individual OHSAS 18001 accreditation.

Divisional management are responsible for monitoring the performance of the management system. Each division has a nominated specialist to assist with monitoring compliance.

The efficacy of the management systems will be reviewed by the board annually.

***Our goal is to incorporate the philosophy of lean manufacturing into our business management systems in such a way as to meet the requirements of recognised management standards and a commitment to continuous improvement. Thereby ensuring our management systems are customer focussed, appropriate for the business and where required can be accredited.***

For and on behalf of Elliott Group Ltd

Mr Lee Newman  
Managing Director

October 2015

The Directors will review and revise the policy statement regularly.
